Container Number	XYZ987654
Cargo description	40 boxes chilled consumable food (RF)
Cargo Loss value (AUD)	\$400,000

## Assessment Result & Explanation:

Assessment	Yellow
<b>Nonissues:</b> <ul style="list-style-type: none"><li>- The reefer unit had the correct set point.</li><li>- The cargo was properly pre-chilled prior to loading</li><li>- The cargo was properly packed into the container (under red line etc)</li><li>- The cargo was picked up immediately after advising the reefer container had failed</li></ul>	
<b>Issues in recovery:</b>	
1. <b>Failure to properly document destruction of cargo</b>	
You claim destruction of full container load however you have no documentary evidence to support this claim against the carrier.	
2. <b>You have a duty to mitigate in your cargo claims.</b>	
You have failed to show what other options were available to dispose of this cargo in a secondary market to recover partial loss.	
If there was no option but to destroy, you need to provide this to prove you have attempted reasonable mitigation efforts in this claim.	
You have a basis to claim however you will suffer a discount on the recovery unless you can rectify the above issues.
